Mark;

WV has Primacy for the DW program –a delegated program. Over the years there are several reviews that take place. There are semiannual reviews of the PWSS program – there have been program/ data reviews. This could be quite an extensive request

Bill-

One of the Freedom Industries FOIAs asks for :

Any audits or other reviews conducted by EPA in the last 20 years that examined the adequacy of the safe drinking water act program within the West Virginia Department of Health and Human Resources.

Does WV have a delegated SDWA program, or something similar? Would any such reviews have taken place? If so, would your group have done them?
